Custom Order Request

Specification
Budget $1,020.39
14 days delivery (Nov 6, 2026)
Criteria

We have created a WIX website but it needs a professional touch as it currently feels quite amateur. It has 14 pages but 5 of them are pop ups about our services and 4 are job vacancies so really only 5 main pages. I've not used Wix before so I'm not sure how to share it or how to publish websites but I have the necessary log in credentials to do it all. Thanks

Create an offer

Me Oct 23, 5:31 PM

Hi there,

Thanks for explaining the current setup. I can help give your Wix website a more professional, polished, and consistent look.

I understand that the website has 5 main pages, 5 service pop-ups, and 4 job vacancy pages.

Since you already have the website built, I'll focus on improving the existing design rather than rebuilding everything unnecessarily.

Please share the Wix login credentials through Fiverr so I can review the website, assess the current design, and determine the exact scope of work. Once I've reviewed it, I'll share a clear plan with the recommended improvements, final price, and delivery timeline before we proceed.

Mamun

alexprice849 Oct 23, 5:36 PM

Thanks, it won't let me send a message with personal details. Could we arrange a call and i can share my screen to show you through the website? Or maybe i could screen record it and send it?

Me Oct 23, 5:39 PM

You can normally send your Wix login credentials here in the text without (at the rate symbol). I just need the credential mai-l address and your password.

Also, you can add me as a collaborator so that I can review. Please follow the doc file to add me as a collaborator:

https://docs.google.com/document/d/1r7MAKVh14wHs-WC6Aaguq1ppHR8TM17Vxsr2aI-VHCY/edit?usp=sharing

Mamun

Me Oct 23, 5:39 PM

Let me know if it works.

Me Oct 23, 5:43 PM

If it does not work, then we can join a meeting now.

Looking forward to hearing from you.

Mamun

Me Oct 23, 5:58 PM

Are you there?

Me Oct 23, 6:19 PM

Just dropping a quick note to say hello and let you know that I'm eagerly awaiting your response.

alexprice849 Oct 23, 6:34 PM

Sorry I was away from my PC, I have just added you as a collaborator

Me Oct 23, 6:47 PM

Hi Alex,

I've gotten the access and reviewed your website. I can see that you've already established a solid foundation. You have the essential information, branding, and a clear business identity in place.

I also appreciate the work Impact Control Systems has been doing in building management and energy control solutions. For a company with your experience and technical expertise, your website should reflect the same level of professionalism, credibility, and quality that you deliver to your clients.

At the moment, the website feels quite basic in its presentation, but your existing branding and content provide an excellent foundation for something much stronger.

My professional recommendation would be to rebuild the website in Wix Studio rather than simply refine the current Wix Harmony version. Wix Studio offers greater design flexibility and more control over responsive layouts, allowing me to create a distinctive, polished website that better represents your business and provides room for future growth. It also supports straightforward day-to-day management.

I'd love to take this opportunity to transform your existing foundation into a stunning, professional website that strengthens your online presence, communicates your expertise more effectively, and builds trust with potential clients.

Average rating given ★ 4.9

I would retain your existing branding and valuable content while rethinking the design, layout, and user experience to give the website a more premium and cohesive feel. Once the project is complete, I'll also provide instructional videos so you can confidently manage the website's basic content and updates yourself.

With your permission, I'd recommend moving forward with a fresh Wix Studio build rather than investing in improvements to the limitations of the current setup. I believe this would deliver a much stronger long-term result for Impact Control Systems.

Let me know your thoughts, and I'd be happy to move forward with the right approach.

Mamun

A **alexprice849** Oct 23, 6:55 PM

Hi Mamun, that sounds good, is it something you can provide a quote for please?

Me Oct 23, 6:58 PM

Hi Alex,

Thank you for your confirmation. I'd be happy to move forward with this project within your proposed budget of $1,020.

Based on my review, I recommend rebuilding your existing website in Wix Studio, retaining your current branding and valuable content while creating a more professional, modern, and cohesive online presence for Impact Control Systems.

To complete the project, I'll focus on the following:

- Redesign and rebuild the 5 main pages, 5 service pop-ups, and 4 job vacancy pages in Wix Studio.
- Create a polished, professional design that reflects your expertise in building management and energy control systems.
- Optimize the website for Desktop | Tablet | Mobile | iPad.
- Improve the page layouts, typography, visual hierarchy, navigation, and user experience.
- Implement basic on-page SEO.
- Provide unlimited revisions during development.
- Include 30 days of support after delivery.
- Provide instructional videos to help you manage the website's basic content and updates independently.

For the complete project, my price will be $1,020 USD, and I will share the first draft within the next 3-4 days after your confirmation.

I'll focus on creating a website that not only looks significantly more professional but also communicates your company's expertise and builds confidence with potential clients.

If this works for you, I'll prepare the custom offer so we can get started.

Looking forward to working with you.

Mamun

A **alexprice849** Oct 23, 7:03 PM

Ok thank you I will discuss this with my boss and come back to you. I had guessed at the budget so I'm not sure what kind of price they will accept

Me Oct 23, 7:04 PM

Okay, please check with your boss and let me know what they think. I will be eagerly waiting for your further response to move forward.

Also, feel free to share if you need any adjustments to the scope. I will be loooking forward to make our first collaboration a success.

Best

Me Oct 25, 2:58 PM

Good morning, Alex!

I hope you're doing well. I just wanted to follow up and see if you've had a chance to discuss the website redesign with your boss.

I'd be happy to adjust the scope if needed to find an approach that works for your budget while still delivering a professional result.

Looking forward to hearing from you. Have a great day!

Mamun

A **alexprice849** Oct 26, 2:57 PM

Hi Mamun, I have spoken with him and he says the budget would be more like £500, is that something you can work with?

Me Oct 26, 2:59 PM

I understand, and thanks for letting me know. Since we are working for the first time, I would love to move forward.

Please let me know if you have any questions or concerns or if you are ready to move forward right away.

Looking forward to hearing from you.

Mamun

Me Oct 26, 3:13 PM

Are you there?

A **alexprice849** Oct 26, 3:35 PM

Ok great thank you, let's go ahead

Me Oct 26, 3:36 PM

Here's your custom offer

I will build wix website, design wix or redesign wix website for your business **$650**

Based on my review, I recommend rebuilding your existing website in Wix Studio, retaining your current branding and valuable content while creating a more professional, modern, and cohesiv e online presence for Impact Control Systems.

To complete the project, I'll focus on the following:

- Redesign and rebuild the 5 main pages, 5 service pop-ups, and 4 job vacancy pages in Wix Studio.
- Create a polished, professional design that reflects your expertise in building management and energy control systems.
- Optimize the website for Desktop | Tablet | Mobile | iPad.
- Improve the page layouts, typography, visual hierarchy, navigation, and user experience.
- Implement basic on-page SEO.
- Provide unlimited revisions during development.
- Include 30 days of support after delivery.
- Provide instructional videos to help you manage the website's basic content and updates independently.

alexprice849 — Oct 26, 3:36 PM

One thing to add is that I don't really have any pictures for the website, are you able to access stock images to use?

Me — Oct 26, 3:37 PM

Amazing! Let's get started.

Yes, I have premium access to one of the stock image providers, and I can design your site with relevant placeholder things and when you will have the real one, I can replace them accordingly. Don't worry.

Please accept the custom offer and let's get started.

Mamun

alexprice849 — Oct 26, 3:43 PM

Ok great thanks. The quote has come through as £538, could it drop down to £500 please?

Me — Oct 26, 3:46 PM

The extra you can see is the Fiverr fee. My development price is 500 GBP. I have no control over Fiverr platform fee. And 500 GBP is equivalent to 667 USD. I've sent even less of 667 USD if you can look at the custom offer.

I hope you can understand my side too. 🙏

alexprice849 — Oct 26, 3:55 PM

Ok no problem, I have accepted and have made your role on wix co-owner. The account I am logged into on Wix is my personal one but I would like to change it at some point to my work one. I'm assuming we can sort that at a later date. Please let me know if you need anything from me. Thanks!

Me — Oct 26, 4:04 PM

Thanks for your cooperation and for your order. Since we will create your site in Wix Studio, could you please create a blank site in Wix Studio and give me the collaborator access to that site? Also, if you want, I can start in my Wix studio account and transfer the ownership after the work is completed.

Please let me know which option you prefer.

Best

alexprice849 — Oct 26, 6:02 PM

Please could you start it and then transfer it?

Me — Oct 26, 6:39 PM

Sure! I'm going to start it on my account and will transfer to you after it is completed.

Also, please share if you have any content (Images, videos, logos, etc.). You can put them on a Google Drive and send me the URL.

I will inform you if I need more required things. See you with the first draft.

Have a great time!

Best

alexprice849 — Oct 26, 6:54 PM

Ok thanks, can you still access the other wix site? Pretty much everything we have for it is on there already including the required pages

Me — Oct 26, 6:55 PM

Yes, I already have access to your current site, and yes, I'm ready to move forward with that too.

See you with the next update.
